
ARCHITECTURAL GUIDELINES OF PARK CROSSING

Pursuant to Section 55A-8-25 of the North Carolina Nonprofit Corporation Act ("NCA"), the BOARD OF DIRECTORS ("Board") of Park Crossing Owners Association, Inc. ("Association") has appointed a Committee of the Board of Directors to be known as the "Architectural Control Committee" ("ACC"). Pursuant to Section 55A-8-25(d) of the NCA, the Board has vested the ACC with the power to act on behalf of the Board in administering Article VIII of the Declaration of Covenants, Conditions, and Restrictions for the Park Crossing Community ("Declaration") under guidelines issued by the Board, except that the ACC may not exercise the remedies set forth in Section 1(f) or Section 2(h) of Article VIII of the Declaration, which remedies are exclusively reserved for use by the Board of Directors in its discretion. Accordingly, in order for the ACC to administer Article VIII of the Declaration, and to assist Members of the Association ("Owners") in complying with the requirements of Article VIII of the Declaration, the Board hereby adopts the guidelines set forth below (the "Architectural Guidelines").

Important: This is an official document adopted by the Board. The Homeowner's Guide to these Architectural Guidelines summarizes some of the key terms of particular interest to homeowners, but the Homeowner's Guide is not the official document containing the Architectural Guidelines. Neither of these documents should be amended without ensuring that the relevant provisions of both are consistent. Only the Board has the authority to amend these documents. See Part D, paragraph 9 below regarding amendments.

Part A. STRUCTURES

1. **All Structures & all Additions, Changes & Alterations to Structures are prohibited unless they have been approved.**

Background. Under Section 1(a) of Article VIII of the Declaration, no one is permitted to commence, erect or maintain any structure of any kind (being all inclusive including fences and walls) on any Owner's lot or on any common area of the Association, nor is anyone permitted to make any addition, change or alteration to any structure, unless complete final plans and specifications that meet the requirements of Section 1 of Article VIII of the Declaration have been submitted to and approved by the Association.

Guideline A.1.1. All approvals must be in writing.

No approval under Section 1(a) of Article VIII of the Declaration will be valid unless it is in writing signed by the President or Secretary of the Association or by the Chair of the ACC.

Guideline A.1.2. Meaning of the word "Structure".

For purposes of administering Article VIII of the Declaration, the word "structure" will mean any permanent structure, including (but not limited to) any of the following structures, whether attached or unattached to any house and wherever situated in, on or above any Lot or Common Area:

Any house; dwelling; building; foundation; chimney; room or room addition or expansion beyond the existing walls of a house; exterior window; exterior window covering (including anti-burglary bars); exterior shutter; exterior door; exterior entryway; exterior wall; exterior stairway; roof; garage; shed; storage facility; awning; canopy; column, arch; porch; deck; patio; gazebo; outside walk or driveway; parking area; car port; library; clothesline pole; flagpole (excluding usual and customary decorative flagpoles affixed to the exterior wall of a house); exterior radio or television antenna; satellite dish; lamp post; mailbox; mailbox post; newspaper box post; fence; sign (except signs permitted under Section 2(g) of Article VIII of the Declaration); exterior statue or sculpture; non-portable playground, sports or recreational equipment installed on any lot or common area or affixed

to any exterior wall or other structure; children's playhouse, swing-set, tree-house, tree-platform or other play structure; outside pond, swimming pool, hot tub or spa (including any related equipment or device); heating, cooling, air conditioning, refrigeration, ventilation, or plumbing equipment or device (whether air or water related) for any structure when such equipment or device is located outside a house;

provided, however, that to the extent that any of the foregoing items is not considered a structure but has been or will be affixed, attached or added to any existing structure, the item will be considered an addition, change or alteration to that existing structure for purposes of administering Article VIII of the Declaration.

Guideline A.1.3. Meaning of the word "Maintain".

When it appears in the phrase "commence, erect or maintain" in Article VIII of the Declaration, the word "maintain" means "permit to exist".

Guideline A.1.4. Original Construction Grandfathered.

For any house built in Park Crossing prior to 2001, it shall be deemed that the plans and specifications for building that house were submitted and approved by the Association (whether or not they were actually submitted and approved) and that approval shall also be deemed to have been given in respect of any items of original construction that, at the time such house was built, became appurtenant to the house or lot, including any foundation, chimney, room, exterior window, exterior shutter, exterior door, exterior entryway, exterior wall, exterior stairway, roof, garage, awning, canopy, column, arch, porch, deck, patio, outside walk or driveway, parking area, lamp post, or fence, but excluding any mailbox and mailbox post that do not meet the Old Standard Mailbox & Post specifications described in Guideline A.7.1 below.

2. **Requesting Approval.**

Background. Under Section 1(d) of Article VIII of the Declaration, any Owner requesting approval must do more than submit the required plans and specifications to the Association. The Owner must also give written notice to the Association stating that the Owner has submitted the plans and specifications required by Section 1(a) of Article VIII of the Declaration and requesting approval. If such notice is given and the plans and specifications meet the requirements of Section 1(a) of Article VIII of the Declaration, then the Association has 30 days from receipt of that notice to approve or disapprove the plans and specifications.

Guideline A.2.1. Delivery of Plans & Specifications.

Plans and specifications may be submitted to the Association's principal office or to the ACC Chair.

Guideline A.2.2. Notice of Plans, Specifications and Request for Approval.

Any such written notice to the Association shall be effective when it is addressed to, and received by, the Association at its principal office.

Guideline A.2.3. Content of Plans & Specifications.

As provided in Section 1(a) of Article VIII of the Declaration:

"No structure of any kind (being all inclusive including fences and walls) shall be commenced, erected or maintained upon the Properties, nor shall any addition to any existing structure or change or alteration therein, until compete final plans and specifications therefor showing the nature, kind, shape, height, materials, basic exterior finishes and colors, location and floor plan therefor, and showing front, side and rear elevations have been submitted to and approved by the Association as to harmony of exterior design and general quality with the standards of the area, and Park Crossing Community generally, and as to location in relation to surrounding structures and topography."

The Association has thirty (30) days to approve or disapprove such plans and specifications after receipt of written notice that such plans and specifications have been submitted to it and approval requested. Otherwise, they are deemed to be approved. See Section 1(d) of Article VIII of the Declaration.

If the ACC determines in its discretion that plans and specifications submitted to the Association do not meet all of these requirements, it will notify and inform the homeowner what the deficiency is and what needs to be submitted or resubmitted.

When plans and specifications are submitted for a structure that does not involve construction Work, it shall be within the discretion of the ACC to decide whether to accept plans and specifications that do not meet all of the requirements of Section 1(a) of Article VIII of the Declaration.

When construction Work will be involved, the ACC shall disapprove any plans and specifications that do not include at least the following:

- Site plan
- Dimensioned floor plans
- Duplicate set of drawings used to obtain building permit
- Exterior elevations (front, side and rear)
- Color samples
- Samples of materials to be used, or a description of the materials

Guideline A.2.4 – Post-Completion Documentation

For certain approved projects involving permanent construction, structural modification, or visually impactful exterior changes, the Architectural Control Committee (“ACC”) may require post-completion documentation to verify that the work was completed in substantial accordance with the approved plans and specifications.

At the discretion of the ACC, such documentation may include clear photographs of the completed work and shall be submitted by the Owner within the timeframe specified in the approval.

Projects that may require post-completion documentation include, but are not limited to:

- Additions, renovations, or exterior structural modifications
- Swimming pools, spas, patios, hardscapes, or retaining walls
- Fences, walls, or gates
- Detached structures or garages
- Significant exterior façade changes, including doors, windows, masonry, rooflines, or cladding

Routine maintenance, repairs, landscaping replacements, or tree removals approved under these Architectural Guidelines generally will not require post-completion documentation unless expressly stated in the approval.

When post-completion documentation is required, the Owner shall submit such documentation within **thirty (30) days** of completion of the approved work, unless otherwise specified in writing by the ACC.

The ACC may conduct any post-completion verification within **sixty (60) days** of receipt of such documentation or notice of project completion.

3. Building Codes, Deed Restrictions and other Legal Requirements.

Guideline A.3.1. Scope of Approval.

Any approval of plans and specifications by the Association is and will be given solely for purposes of the Declaration and does not and will not constitute any statement, express or implied, that the plans and specifications are in compliance with the requirements of: any applicable building code; any deed restriction binding on the Owner or the Owner’s property; any setback, lot line or border; or any law, rule, regulation or order or any other legal requirement. Neither the Association nor any of its Directors or Officers shall have any duty or responsibility whatsoever, express or implied, to investigate, or to notify the Owner (or its builder) of, any such requirements, and none of them will be responsible for the Owner’s (or its builder’s) compliance or failure to comply therewith.

4. **No Unapproved Builders may be used for any Work, including any Owner acting as own Builder.**

Background. Under Section 1(d) of Article VIII of the Declaration, when there is to be any work performed relating to any structure, the work cannot be commenced until the builder who will be performing the work is approved in advance by the Association and meets the qualifications for approval as set forth in such Section 1(d), including the requirement that it must be a professional builder who obtains his or her income primarily from constructing the type of structure to be built. These qualifications and requirements also apply to any Owner who will be acting as his or her own builder.

Guideline A.4.1. Meaning of the word "Work".

For purposes of administering Section 1(d) of Article VIII of the Declaration, the word "work" will mean construction work, including (i) the building of any structure, (ii) any construction work for making any addition to, change in or alteration of any structure, or (iii) any construction work to repair or replace any structure.

Guideline A.4.2. Builder Qualifications.

Any Owner seeking approval of any builder for any such work shall, upon request of the ACC Chair, furnish the Association with such information as the ACC Chair may reasonably request evidencing the builder's financial stability, building experience and ability to perform the work of the class and type to be performed as required by Section 1(d) of Article VIII of the Declaration. The furnishing of such information shall be effective when it is addressed to, and received by, the Association at its principal office or is received by the ACC Chair.

Guideline A.4.3. When Owner acts as Builder or Contractor for Construction Work.

Any Owner seeking approval to act as his or her own builder or contractor for any such construction work relating to the exterior of any structure shall, upon request of the ACC Chair, furnish the Association with such information as the ACC Chair may reasonably request evidencing the Owner's financial stability, building experience and ability to perform the work of the class and type to be performed as required by Section 1(d) of Article VIII of the Declaration. The furnishing of such information shall be effective when it is addressed to, and received by, the Association at its principal office or is received by the ACC Chair.

Guideline A.4.4. Scope of Approval.

Any approval of a builder by the Association is and will be given solely for purposes of the Declaration and does not and will not constitute any statement, express or implied, as to the builder, its qualifications or quality of work product (past or present).

5. **Approval Authority.**

Background. The authority on behalf of the Association to approve or disapprove of any plans, specifications, builder or location is vested in the Board.

Guideline A.5.1. Delegation of Approval Power to ACC.

By adoption of these Architectural Guidelines, the Board has delegated to the ACC the power to exercise the Board's authority to approve or disapprove of any plans, specifications, builder or location, which power the Board may revoke in its sole and absolute discretion at any time.

Guideline A.5.2. Exercise of Delegated Power.

The ACC may exercise such delegated power on behalf of the Association to the same extent, and (except as provided in these Architectural Guidelines) with the same degree of discretion, as the Board itself could exercise.

6. **Grounds for Approval or Disapproval.**

Background. Under Section 1(d) of Article III, approval or disapproval of plans, specifications, builder or location may be based upon any grounds whatsoever, including purely aesthetic considerations, which are in the sole and uncontrolled discretion of the Association.

Guideline A.6.1. Automatic Disapproval.

No plans or specifications for any of the following structures will be approved, and accordingly, the commencement, erection or maintenance on any Lot or Common Area of any of the following structures is expressly prohibited:

- Storage sheds or storage facilities unattached to any house.
- Chain-linked fences or fences with any "chicken wire" or barbed wire.
- Any fence located on any Lot such that all or any portion of the fence extends forward beyond the front line of the house drawn in both directions to the Lot's borders.
- Stucco fences.
- Plain plank privacy fences.
- A privacy fence with the unfinished side facing the neighbor.
- A privacy panel (a fence which does not fully enclose a backyard) which is not finished on both sides (double picketed or of a shadow box design).
- Satellite dishes larger than one meter in diameter.
- Above-ground swimming pools.
- Unpainted aluminum or wrought iron storm doors.
- Treehouses or tree-platforms.
- Any separate post for the mounting of any newspaper box.
- Any mailbox or mailbox post that does not meet the Old Standard Mailbox & Post requirement in Guideline A.7.1 or the New Standard Mailbox & Post requirement in Guideline A.7.2.
- Vinyl siding on any exterior surface.
- Any driveway color other than a shade of gray (specific shade to be approved if color change is to be made).
- Any revision to driveway shape which will eliminate "s" curve of driveway.

However, the Association always reserves the right to approve or disapprove any plans or specifications on any grounds or aesthetic considerations in its sole and uncontrolled discretion, and just because a particular structure does not meet any of the foregoing descriptions (or has less than all of such characteristics) does not mean that the structure will be approved.

Guideline A.6.2. Terms and Conditions of Approval.

Neither the ACC nor the Board will approve any of the structures described below, or changes or modifications to, or involving, any of the structures described below, unless the terms, conditions or specifications as indicated below are met or, as specified below, the Owner agrees to meet such terms and conditions within the timeframe indicated.

However, the Association always reserves the right to approve or disapprove any plans or specifications on any grounds or aesthetic considerations in its sole and uncontrolled discretion, and just because a particular structure meets such terms, conditions or specifications (or has all of the described characteristics) does not mean that the structure will be approved.

- **Fences**

- (a) **Fence Guidelines** (by type)

- Fences may be privacy (wooden), split rail, brick, stone or wrought iron subject to the guidelines set forth below. These guidelines apply to all new fences installed after May 18, 2003; fences installed prior to May 18, 2003 are grandfathered until such time that a fence needs to be replaced, at which time the guidelines below would apply to the replacement fence, including (without limitation) the planting and screening requirement for any fence that borders Park Crossing Drive. Plans and specifications submitted for fence approvals (including approvals of any replacement fence) must include (i) sufficient information to indicate that these guidelines will be met, and (ii) a site plan or survey showing the location of the proposed fence (except in the case of a replacement fence being erected on

the same location).

Privacy Fences

Color: Natural wood/transparent natural color wood stain that promotes color continuity. Painted fences must be painted either white or the same color as the house trim of the house on the Lot. Samples of the specific paint and stain colors must be submitted with the ACC request form.

Height: Six (6) feet maximum height

Design: The decorative, top portion of a wooden privacy fence may include: French gothic, Virginia gothic, convex, concave, dog eared, lattice, straight top with trim topper.

Pickets on the fence are to be spaced no wider than the width of the picket.

Panels of the wooden privacy fence may be broken with brick columns evenly spaced.

The good side must face out toward neighbors if the fence is not double picketed or of shadowbox design.

Fencing not fully enclosing the backyard must be of neighbor friendly construction – good both sides (double picketed or of shadowbox design).

Split Rail Fences

Color: Natural wood/transparent natural color wood stain that promotes color continuity. Painted fences must be painted either white or the same color as the house trim of the house on the Lot. Samples of the specific paint and stain colors must be submitted with the ACC request form.

Height: Maximum height of four and one-half (4.5) feet

Mesh: Standard contractor wire mesh (no chicken wire)

Brick or Stone Fences

Color: To match that of siding on home, except stone fences may be different from siding if color is approved by the ACC

Height: Six (6) feet maximum height

Wrought Iron or Decorative Rolled Steel/Aluminum Fences

Color: Black unless the color is approved by the ACC.

(b) Landscaping and Screening Requirement for all Fence Approvals

A homeowner with a fence bordering Park Crossing Drive shall be required to install, maintain, water, and replace as necessary plantings designed to screen such fence year-round.

The ACC requires planting multiple species of plants and not in a uniform row. This is considered a “best practice” as it helps to suppress disease and insect problems as well as allows for easier replacement if one plant dies without making it obvious that the replacement was not planted at the same time.

For all fences installed after October 15, 2020, the plantings to be installed must meet or exceed the following guidelines:

- Minimum mature height: 5'
- Minimum of 7-gallon transplant size
- Plantings shall be selected and designed to screen such fence within three (3) growing seasons following the installation of the fence
- All plantings shall be installed no later than 30 days after the fence is installed unless otherwise approved in writing. If not planted by agreed upon date, PCOA will complete plantings and bill the homeowner for expenses incurred.
- Approved Species (no additional approval required if these are chosen and planted per the spacing indicated). Other species and plants are subject to ACC approval. Note that any submission must include the following: Botanical Name, Mature Height, Mature Width, Sunlight Requirements, proposed plant spacing, proposed plant container size at time of planting

COMMON NAME	BOTANICAL NAME	MATURE HEIGHT	MATURE WIDTH	SUNLIGHT	GROWTH RATE	MAX PLANT SPACING
Curled-Leaf Privet	Ilex 'Nellie R. Stevens	15-25'	5-10'	Full Sun to Partial Shade	Fast	5'
Japanese or Wax Leaf Privet	Ligustrum japonicum	8-10'	4-6'	Full Sun to Partial Shade	Fast	4'
Glossy Privet	Ligustrum lucidum	35-40'	5-10'	Full Sun to Partial Shade	Fast	5'
Golden Privet	Ligustrum vicaryi	6-10'	6-8'	Full Sun	Fast	6'
Tea Olive	Osmanthus fragrans	10-20'	6-12'	Full Sun to Partial Shade	Medium	6'
Leyland Cypress*	Cupressocyparis leylandii	50-70'	12-15'	Full Sun to Partial Shade	Fast	6'
Green Giant Arborvitae	Thuja standishii	30-40'	12-15'	Full Sun to Partial Shade	Fast	6'

a short lifespan (10-20yrs) for an evergreen tree. Please plan for future replacement accordingly.

- **Exterior antennas & satellite dishes.**
All satellite dishes must be no larger than one meter in diameter, and all antennas, satellite dishes and masts supporting them must otherwise be approved as to color and location, which shall be in the sole and absolute discretion of the Association provided that any such approval shall be subject to Section 1.4000 of Title 47 of the Code of Federal Regulations, including the requirement that any location chosen must not preclude an acceptable quality signal.
- **Above-ground hot tubs or spas, and any above-ground equipment related to any hot tub, spa or swimming pool.**
All above-ground hot tubs or spas, and all above-ground equipment related to any hot tub, spa or swimming pool shall be accompanied by plantings such as evergreens designed to screen such above-ground tub, spa or equipment from the view of any street or adjacent house year round within two growing seasons following the installation of the above-ground tub, spa or equipment. Such plantings shall be installed no later than six months after the hot tub or spa is installed unless otherwise approved in writing. The ACC or the Board shall have the discretion to waive such plantings when visual screening is already provided by berms or natural vegetation.

Front Yard Swings

As of 8/1/2020, swings in front yards require ACC approval. Swings installed before 8/1/2020 will be grandfathered. Replacement of an existing swing will require ACC approval, there will be a limit of one swing per front yard, and no swing shall have the capability of swinging over a roadway.

- **Garages**

Conversions. The conversion of any existing garage of a house into a living area requires prior ACC approval if any change will be made to any exterior wall of the house, such as removal of an overhead garage door. The ACC must include in any such approval a stipulation for a garage to be built on the Lot within six months of the conversion, the construction of which shall meet all requirements of the Declaration and these Architectural Guidelines, including approval of the plans and specifications required by Section 1(a) of Article VIII of the Declaration. No approval for such conversion may be given without prior submission by the homeowner and approval by the ACC of such plans and specifications for the building of such garage.

Detached Garages.

Although attached garages are preferred, they may not be feasible due to property site limitations. The ACC is authorized to approve detached garages so long as at least the following minimum requirements will be met:

- The garage must be attached to home via fence or wall (minimum of 4' high).
- The garage must be located with a minimum of 5' setback (10' preferred) as measured from the eave to the property line.
- The veneer must match front veneer on home.
- The roof pitch/materials must match roof pitch/materials on home.
- The garage door must be panel or architectural.

Guideline A.6.3 – Detached Accessory Structures

Background.

The Park Crossing Declaration, as amended, restricts each Lot to **single-family residential use** and prohibits the leasing or occupation of any portion of a Lot as a separate dwelling unit. These provisions do not prohibit homeowners from creating **accessory residential spaces**—such as guest suites, studio spaces, home offices, or accommodations for adult family members—so long as the Lot continues to function as a **single-family residence** and is not converted into multiple independent dwelling units.

While the Declaration and existing Guidelines address detached garages, they do not provide standards for other types of permanent detached structures. Because homeowners increasingly seek accessory spaces that support modern residential living, and because approval without guidelines can lead to inconsistent or subjective decisions, this Guideline establishes clear criteria for **permanent, architecturally compatible detached structures** that may include habitable space but remain secondary to, and integrated with, the primary single-family residence.

A. Definition and Purpose

A "Detached Accessory Structure" ("DAS") is a **permanent, enclosed structure** located on the same Lot as the principal single-family dwelling and used for normal residential accessory purposes. A DAS **may be habitable** and may include finished living space such as a guest suite, home office, art or music studio, fitness room, recreation room, or similar spaces.

A DAS **may not** function as a separate dwelling unit. Accordingly:

1. It may not be leased, rented, or used for transient or hotel purposes, consistent with the Amendment to Article VIII, Section 2.

2. It may not be occupied as an independent residence.
3. It may not be used for any commercial, client-facing, or professional business activity, consistent with Guideline B.1.1 (Commercial Use Prohibited).
4. It may not serve as a separate mailbox-eligible address, nor may utilities be separately metered.

Detached Accessory Structures are distinct from temporary structures (see A.8.1) and may not be used as storage sheds, utility outbuildings, or similar non-residential structures.

B. Permanence and Construction Requirements

1. All DAS must be **permanent** in nature and constructed to a standard consistent with residential building practices in Park Crossing. To qualify as permanent, a DAS must:
 - a. Be installed on a **poured concrete slab** or masonry foundation engineered for permanent placement;
 - b. Include necessary utilities (electrical, HVAC, and, if applicable, plumbing) connected in compliance with applicable code;
 - c. Be constructed – whether modular, panelized, prefabricated, or site-built – using **materials and finishes consistent with those of the primary residence** in durability, quality, and long-term stability;
 - d. Not be temporary, mobile, or designed for relocation once installed.
2. Prefabricated, modular, or panelized construction is **permitted** provided that:
 - a. The completed structure is **indistinguishable in appearance, quality, and finish** from traditional on-site construction;
 - b. Exterior materials, siding profiles, roofing, trim, and colors **substantially match** the primary home using commercially reasonable efforts;
 - c. The structure meets or exceeds code requirements applicable to site-built residential construction;
 - d. No visible seams, panel joints, or misaligned textures remain after installation.
3. Temporary sheds, portable buildings, trailers, or any structure lacking a permanent Engineered foundation are prohibited.

C. Setbacks and Placement

A Detached Accessory Structure (“DAS”) must observe the same minimum setbacks as detached garages under Guideline A.6.2:

- Minimum 5 ft setback from the property line;
- 10 ft preferred, measured from the eave to the property line.

In addition, the following placement requirements shall apply:

1. Proximity to the Principal Dwelling

A DAS must be located no more than ten (10) feet from the exterior wall of the **heated, livable** area of the principal dwelling. Unconditioned or accessory elements of the home, including but not limited to screened porches, covered porches, decks, patios, or similar structures, shall not be used to satisfy this distance requirement.

2. Rear-Yard / Building Footprint Alignment

A DAS must be located **behind** the principal dwelling and substantially within the rear-yard footprint of the home. The structure shall be positioned so that it falls generally within the horizontal projection or “shadow” of the principal dwelling when viewed from the street, and shall not be placed forward of, or materially offset to the side of, the main residence.

Placement should minimize visibility from the street and visual impact on neighboring lots. The ACC may require relocation or adjustment of siting to achieve reasonable aesthetic outcomes and consistency with the residential character of Park Crossing.

D. Size and Height Limitations

1. The total finished/heated area of the DAS shall not exceed **10% of the first-floor livable square footage** of the principal dwelling
2. The **maximum height** shall not exceed the **first-story eave line** of the principal dwelling.
3. The **roof pitch and slope** must match those of the primary dwelling within ± 10 degrees.

E. Architectural Harmony

1. The **siding, roofing, trim, windows, doors, and exterior colors** of the DAS must be **substantially similar** to those of the principal dwelling, using all commercially reasonable efforts to match aesthetic design, proportion, and material quality.
2. Architectural style must be consistent with the character of the main residence and surrounding homes.

F. Screening and Landscaping

1. Any side of the DAS visible from the street or an adjacent Lot must be screened using landscaping consistent with the evergreen screening standards in **Guideline A.6.2(b)** for fencing.
2. Screening must achieve year-round opacity within **three growing seasons**.
3. The ACC may require enhanced plantings based on site topography, orientation, or visibility.

G. Use Restrictions

1. DAS may be used for residential accessory purposes only.
2. No commercial, professional, rental, or client-serving activity may occur in or from the structure.
3. A DAS may include sleeping accommodations for occasional guests but may not function as an independent dwelling unit or accessory apartment.

H. Submission Requirements

Applications for a DAS must include:

1. A **site plan** showing location, setbacks, and relationship to existing structures;
2. **Scaled elevations** (front, side, rear);
3. **Foundation, electrical, and plumbing plans;**
4. **Exterior material and color samples;**
5. A **landscaping and screening plan;**
6. Any additional documentation requested by the ACC to ensure compliance.

The ACC reserves the right to disapprove any DAS proposal that does not meet the standards of architectural harmony, community aesthetics, or the residential character of Park Crossing.

Guideline A.6.4 – Chicken Coops and Attached Runs

Any homeowner wishing to construct or maintain a chicken coop intended for the keeping of backyard poultry shall obtain prior written approval from the Architectural Control Committee (ACC). Chickens are permitted solely as household pets and for personal enjoyment. The keeping of poultry for commercial purposes, breeding operations, or similar business activities is prohibited. The ACC's review is intended to focus primarily on the appearance, materials, and construction of the proposed structure.

A. Permit Documentation

Where a permit is required by the City of Charlotte for the keeping of backyard poultry, a copy of the approved permit shall be submitted with the ACC application.

B. Neighbor Communication

Homeowners are encouraged to communicate with adjacent neighbors regarding a proposed chicken coop prior to construction. While neighbor communication is considered a best practice, neighbor acknowledgment or approval shall not be required as a condition of ACC review or approval.

C. Structure Size Requirements

Chicken coops shall be appropriately sized to provide a humane environment for a backyard flock kept as household pets while remaining compatible with the residential character of the community.

The following standards shall apply:

- Minimum enclosed coop area: 12 square feet.
- Maximum enclosed coop area: 30 square feet.
- Maximum height of any coop or attached run: 8 feet.
- Any run shall be physically attached to the coop and designed as an integrated structure.
- Attached runs shall be appropriately sized for the number of birds maintained.
- For purposes of these guidelines, an attached run shall not be considered part of the enclosed coop area and shall not be subject to the enclosed area requirements set forth above.

The minimum enclosed coop area of 12 square feet is intended to promote humane housing standards, encourage durable construction, and maintain consistency with the residential character of the community.

D. Screening and Appearance Requirements

Chicken coops and attached runs shall be designed and maintained in a manner that complements the surrounding residential environment. The purpose of screening is to soften the visual impact of the structure rather than to require complete concealment from neighboring properties or public view. The planting and screening requirement for any chicken coop. Plans and specifications submitted for chicken coop approvals (including approvals of any replacement coop) must include (i) sufficient information to indicate that these guidelines will be met, and (ii) a site plan or survey showing the location of the proposed fence (except in the case of a replacement fence being erected on the same location).

Appropriate screening and aesthetic enhancements may include landscaping, shrubs, decorative fencing, architectural detailing, color coordination with the residence, or other measures intended to improve the overall appearance of the structure.

E. Construction Standards

All chicken coops and attached runs shall:

1. Be constructed of durable, weather-resistant materials intended for permanent outdoor use.
2. Be maintained in good repair and free from excessive rust, deterioration, damage, or neglect.
3. Utilize colors, finishes, and design elements that are reasonably compatible with the residence and surrounding neighborhood.
4. Be securely enclosed to promote animal safety and discourage access by predators.
5. Be designed and maintained to support proper sanitation, cleanliness, and drainage.
6. Not be constructed primarily from temporary or discarded materials such as tarps, scrap lumber, pallets, sheet plastic, or similar materials not intended for permanent outdoor structures.
7. All exposed wood surfaces shall be painted, stained, sealed, or otherwise finished for weather protection. Raw plywood, unfinished lumber, and other exposed unfinished wood surfaces are prohibited.

8. Roofing materials shall be designed for permanent outdoor use and maintained in good condition.

Failure to maintain a chicken coop or attached run in accordance with these standards may result in corrective action consistent with the Association's governing documents.

7. **When Approval Is Not Needed.**

Guideline A.7.1. Maintenance, Repairs & Replacements.

No approval is required in the case of any maintenance, repairs or replacements of pre-existing structures so long as they do not involve any additions, changes or alterations to or from those pre-existing structures, or the rebuilding of any house, except that in the case of any construction work, the builder must still be approved (see Section 1(d) of Article III and Guideline 4.4).

The following examples are illustrative:

- **Repainting or re-staining**
When a painted or stained surface is repainted or re-stained in the same color as that of the existing surface, no approval of plans and specifications is required.
- **Replacement of shingles, gutters, siding or other building materials**
When shingles (or other roof covering materials), gutters, siding or other building materials are replaced with the same type and color of materials as those of the pre-existing material, no approval of plans and specifications is required.

In the case of gutters, when the replacement gutter's exterior is of the same general style, color and appearance as the pre-existing gutter, but differs in design from the existing gutter by keeping out leaves or other debris, no approval will be required despite the difference in design.

- **Repainting or Repairing of Old Standard Mailboxes and Posts**
The repainting or repairing of any Old Standard Mailbox or Post does not require any approval so long as the Old Standard Mailbox & Post specifications continue to be met. Please note Guideline A.6.1 which prohibits the use of a second pole for the mounting of any newspaper box. The following are the specifications for the Old Standard Mailbox & Post:

Old Standard Mailbox & Post specifications (*effective for all mailboxes, poles, and newspaper boxes in existence on or prior to 1/15/01*):

Mailbox:	Black #1 metal rural mailbox.
Pole:	Black schedule 40 steel pipe (1-5/8" outside diameter).
Finial:	Black 4" high pineapple finial (order #657).
Scroll:	Black 3-piece scroll (s,c, and 1/2 of s scroll welded together) 1" X 3/16" thickness (metal).

- **Replacing Old Standard Mailboxes & Posts**
The replacement of any Old Standard Mailbox does not require any approval so long as the Old Standard Mailbox specifications continue to be met.

However, the Old Standard Mailbox Post is no longer manufactured and therefore any replacement of the Old Standard Mailbox Post requires the installation of the New Standard Mailbox and Post.

- **Roof Replacement**
When roof replacement will involve architectural shingles in black or gray tones, no approval of plans and specifications is required.

Guideline A.7.2. New Standard Mailboxes & Posts.

No approval is required in the case of any replacement of any mailbox and mailbox post with the New Standard Mailbox and Post using Carolina Mailboxes as the approved builder. The following are the specifications for the New Standard Mailbox & Post:

New Standard Mailbox & Post (effective for all mailboxes, poles, and newspaper boxes installed after 1/15/01):

Manufacturer: Carolina Mailboxes.
Make/Model/Color: Park Crossing custom black aluminum mailbox system #2 composed of the mailbox, newspaper holder and post with white reflective address numbers on both sides of the newspaper holder.
Mailbox: Solar #2 aluminum mailbox with red aluminum flag.

8. **Temporary Structures are prohibited.**

Background. Under Section 2(d) of Article VIII of the Declaration, no structure of a temporary character is permitted to be placed on any lot or the common areas, except for shelters used by contractors during the construction of any residence.

Guideline A.8.1. What will not be considered Temporary Structures.

For purposes of administering Section 2(d) of Article VIII of the Declaration, the following will not be considered temporary structures (regardless of how portable the item is or the Owner's intent to have the item removed at a future date): any lawn ornaments; any exterior statue or sculpture; any playground, sports or recreational equipment; any children's playhouse, swing-set, or other play structure; construction waste bins and portable toilets during any period of remodeling or construction.

However, just because the Board has determined for purposes of Section 2(d) of Article VIII of the Declaration that these items will not be considered temporary structures does not mean that they are approved or permitted. Depending on what they are and their characteristics, some of these items may be disapproved or otherwise prohibited under the Declaration or these Architectural Guidelines or by the ACC or the Board.

Part B. RESTRICTIONS ON USE

1. **Single-family residential use only.**

Background. Under Section 2(a) of Article VIII of the Declaration, all Lots must be used for single-family residential purposes only. Section 2(a) as amended also provides that:

"For purposes of this section "single family" shall mean and refer to one family related by blood, marriage or legal action or no more than three (3) individuals unrelated by blood, marriage or legal action. No Owner shall lease his lot for transient or hotel purposes. No Owner may lease less than the entire house located on a lot. Any lease agreement shall provide that it is subject to the provisions of this Declaration."

Guideline B.1.1. Commercial use prohibited.

For purposes of administering Section 2(a) of Article VIII of the Declaration, in addition to the limitation on who may reside on any Lot and the lease restrictions contained in such Section, the limitation on use of Lots for "single-family residential purposes" shall also be deemed to prohibit the carrying on or conducting of any industry, commercial business or trade on, in or from any lot or house, except this will not prohibit anyone from keeping professional records in, or making or receiving professional telephone calls from, any residence.

2. **Prohibition on anything noxious, dangerous, unsightly, unpleasant, offensive, embarrassing, discomforting, annoying or constituting a nuisance.**

Background.

Under Section 2(b) of Article VIII of the Declaration, anything (including any plant, animal, device or thing) whose normal activities or existence is in any way noxious, dangerous, unsightly, unpleasant or of a nature as may diminish or destroy the enjoyment of property in Park Crossing by the Owners thereof is not allowed to be maintained.

Under Section 2(c) of Article VIII of the Declaration, no noxious or offensive activity may be carried on, nor shall anything be done tending to cause embarrassment, discomfort, annoyance or nuisance to any Owner.

Section 2(f) of Article III specifically prohibits the placing or maintaining on any lot or common area of any trash, garbage, construction debris or other unsightly or offensive material unless it is construction-related and temporary.

Under Section 2(h) of Article III, each Owner is responsible for preventing unclean, unsightly or unkempt conditions of buildings or grounds that tend to substantially decrease the beauty of Park Crossing.

Guideline B.2.1. What will be prohibited

The Board retains the right at any time to declare or determine what will be considered to be noxious, dangerous, unsightly, unpleasant or of a nature as may diminish or destroy the enjoyment of property in Park Crossing. Besides any other plant, animal, device, thing or activity that may be declared or determined to be prohibited for having any of such characteristics, the following have been declared to be prohibited:

- **Animals**
The raising, breeding or keeping of any animals, except that dogs, cats and other usual household pets may be kept as pets only if they are not raised, kept or bred for any commercial purpose, are not dangerous and do not cause or create a nuisance or unreasonable disturbance.
- **Clotheslines and laundry**
All clotheslines are prohibited, and no clothes, sheets, blankets, or laundry of any kind may be hung out anywhere on any house or Lot.
- **Firewood**
The placing or maintaining of any firewood on any Lot or Common Area, except that a resident may place or maintain firewood in that resident's back yard until such time as the Association determines it to be noxious, dangerous, unsightly, unpleasant or of a nature as may diminish or destroy the enjoyment of property in Park Crossing.
- **Yard waste**
The placing or maintaining of any yard waste (including piles or bundles of grass clippings, leaves, sticks or branches) on any Lot or Common Area, except that residents may place yard waste in an inconspicuous place on their Lots behind their houses for no longer than a week at a time, and may also place yard waste adjacent to the curb of the street in front of the resident's house for collection by the City of Charlotte's Solid Waste Services.

If anyone places yard waste at curbside earlier than the day before the scheduled collection date or fails to remove any such yard waste if left uncollected by Solid Waste Services on the scheduled collection date, they may be subject to a fine of at least \$50.00 payable to the City of Charlotte. Section 10-105 of Chapter 10 of the City of Charlotte's Health and Sanitation Ordinance governs yard waste, and provides that any person who places yard waste at curbside earlier than the day before the scheduled collection date or who fails to remove yard waste from curbside by midnight on the day of collection may be issued a civil penalty in the amount of \$50.00. For yard waste, garbage, and other materials to be eligible for collection by Solid Waste Services, such materials must meet certain requirements specified in such ordinance. Owners may wish to familiarize themselves with Chapter 10 in its entirety as it covers a variety of health, sanitary and safety requirements pertaining to residential property, sidewalks, and streets.

- **Any vehicles on Common Areas**

The storage or overnight parking of any vehicle on any Common Area.

Guideline B.2.2. What will be required

- **Grounds**

All lawns, beds, landscaping and grounds (including any trees and shrubbery on lawns or otherwise in the landscaped area of a Lot), whether or not visible from the street, must be maintained such that no unclean, unsightly or unkempt conditions are permitted to exist which, in the uncontrolled discretion of the Association, would tend to substantially decrease the beauty of Park Crossing.

- The maximum allowable grass length shall not exceed 6 inches. Property owners are responsible for regular mowing and maintenance to ensure compliance with this requirement. Note: This is an ACC requirement, and does not abrogate, absolve, or in any way alter the responsibilities of the homeowner to conform to all laws, ordinances, rules and regulations in performing the required duties of lawn maintenance pursuant to Sec. 10-155, subsection (a), of City of Charlotte, North Carolina's Code of Ordinances.

- **Structures**

All structures, and all exterior surfaces of any structures, whether or not visible from the street, must be maintained such that no unclean, unsightly or unkempt conditions are permitted to exist which, in the uncontrolled discretion of the Association, would tend to substantially decrease the beauty of Park Crossing.

- **Recreational Equipment & Structures**

Defined as "structures" in Guideline A.1.2., prior ACC approval is required for all non-portable playground, sports or recreational equipment installed on any Lot or Common Area or affixed to any exterior wall or other structure, and all children's playhouses, swing-sets, tree-houses, tree-platforms and other play structures, including their location on any Lot or on any house in order to achieve a functional and aesthetically pleasing result and taking into consideration the impact, if any, on neighbors.

3. **Prohibition on removing any trees (of a certain size), any flowering trees (no matter what size) or any shrubs.**

Background. Under Section 2(e) of Article VIII of the Declaration, without the written approval of the Association, no trees measuring at least six inches in diameter at a point two feet above ground level may be removed, no flowering trees may be removed (regardless of their size), and no shrubs may be removed, except those located within ten feet of a house or those trees which have been damaged or must be removed due to an emergency. Before the subdivision was completed, all trees and shrubs could also be removed when they were within ten feet of the approved site for a house or within the right-of-way of driveways or walkways.

Guideline B.3.1. Verification

Any trees that have been damaged, or that measure less than six inches in diameter at a point two feet above the ground, must be inspected by an ACC member or assistant prior to their removal to verify that they qualify for removal unless they are located within ten feet of a house.

Guideline B.3.2. Measurements.

For purposes of this requirement, if a tree measures at least 19 inches in circumference at a point two feet above the ground, it shall be deemed to be at least six inches in diameter, and if a tree measures less than 19 inches in circumference at a point two feet above the ground, it shall be deemed to be less than six inches in diameter.

Guideline B.3.3. Tree Removal.

All requests that involve a tree removal from a front yard will be required to have the stump from the tree removed within 30 days of the tree being removed. Debris from the tree removal is to be removed within 15 days.

4. **Prohibition on signs (except "For Sale" signs).**

Background. Under Section 2(g) of Article VIII of the Declaration, no sign may be erected or maintained on any Lot, except for one professionally-lettered builder or realtor sign, or sign of the Owner, advertising the home and Lot for sale or rent with dimensions measuring no more than 36 inches by 48 inches.

Guideline B.4.1. No signs on Common Areas

No sign may be erected or maintained on any part of the Common Areas except by the Association, the Park Crossing Recreation Club, or the Park Crossing Women's Club provided that they have been approved by the ACC.

Guideline B.4.2. Political signs

The Board believes that certain constitutional limitations may apply to the prohibition contained in Section 2(g) of Article III, and therefore the Board intends to permit Owners to maintain on their Lots during political campaigns usual and customary signs promoting political candidates seeking public office or other matters on which a vote is to be taken in a local or national election or referendum.

Part C. ENFORCEMENT OF ARCHITECTURAL CONTROLS & USE RESTRICTIONS

1. Enforcement Authority.

Background. As provided in Section 1 of Article XI of the Declaration, and without limiting the right of any Owner to bring a separate proceeding at law or in equity, the Association has the right to enforce the provisions of the Declaration, including the architectural controls and use restrictions contained in Article VIII of the Declaration. The authority on behalf of the Association to enforce such architectural controls and use restrictions is vested in the Board.

Guideline C.1.1. Delegation of Certain Enforcement Powers to ACC.

By adoption of these Architectural Guidelines, and in addition to the power to approve or disapprove of any plans, specifications, builder or location as provided in Part A above, the Board has delegated to the ACC each of the following powers in connection with the enforcement of the architectural controls and use restrictions contained in Article VIII of the Declaration, which powers the Board may revoke in its sole and absolute discretion at any time:

- **Inspecting and evaluating properties and activities.** To inspect and evaluate on behalf of the Association the condition and character of all properties located, and activities carried on, in the Park Crossing Community to the extent governed by Article VIII of the Declaration, and any other matter or thing to which Article VIII of the Declaration applies, including any related facts and circumstances.
- **Investigating complaints.** To investigate on behalf of the Association any complaint brought by any Owner or resident of Park Crossing to the attention of the Association, whether through the Board (or any of its Directors), the ACC (or any of its members) or any officer of the Association, concerning any matter or thing to which Article VIII of the Declaration applies, including any related facts and circumstances.
- **Making findings.** To make findings on behalf of the Association as to whether there are reasonable grounds for believing that a violation or breach of Article VIII of the Declaration has occurred.
- **Bringing complaints.** Upon making a finding that such grounds exist, to decide whether to bring on behalf of the Association a complaint against any Owner alleging, or informing the Owner of, a violation or breach of Article VIII of the Declaration, and then to bring such a complaint when it is so decided.
- **Resolving complaints.** To communicate on behalf of the Association with any Owner in an attempt to resolve to the satisfaction of the ACC any such violation or breach, or alleged violation or breach, so that it ceases to exist.
- **Establishing deadlines.** To establish on behalf of the Association one or more deadlines by which any such violation or breach must be resolved to the satisfaction of the ACC in its discretion.

Guideline C.1.1(a) – Verification of Approved Work

Approval by the ACC constitutes approval of the plans and specifications as submitted and does not constitute a waiver of compliance.

The ACC reserves the right to verify, inspect, or audit completed work to confirm that it conforms in all material respects to the approved request. Such verification may be conducted through review of post-completion documentation, visual inspection, or site visit, at the discretion of the ACC.

Any material deviation from the approved plans and specifications that has not received prior written approval from the ACC may be treated as a violation of Article VIII of the Declaration and addressed in accordance with the enforcement provisions therein.

Guideline C.1.2. Exercise of delegated powers.

The ACC may exercise any of such delegated powers on behalf of the Association to the same extent, and (except as provided in these Architectural Guidelines) with the same degree of discretion, as the Board itself could exercise, and each such delegated power may be exercised independent of the other delegated powers.

Guideline C.1.3. Referring matters to the Board.

In lieu of taking any action itself, the ACC may refer to the Board (i) any matter or thing pertaining to Article VIII of the Declaration of an urgent nature or which the ACC in its discretion otherwise deems appropriate to refer to the Board, or (ii) any complaint which has not been resolved to the satisfaction of the ACC.

Guideline C.1.4. Meaning of the word “complaint”.

When brought by the ACC on behalf of the Association, “complaint” means a written notice or communication from the ACC to an Owner alleging or informing the Owner that a violation or breach of Article VIII of the Declaration has occurred and describing the violation or breach. When brought to the attention of the Association by any Owner, “complaint” means any oral or written communication expressing the Owner’s objection to any matter or thing that may be in violation or breach of Article VIII of the Declaration.

Guideline C.1.5 – Unauthorized Exterior Work / Work Commencing Without Approval

No Owner shall commence, install, modify, remove, construct, or alter any exterior improvement, landscaping, structure, or architectural element subject to Architectural Control Committee (“ACC”) review without first obtaining written approval from the ACC in accordance with these Guidelines and the Declaration.

Any work commenced prior to written ACC approval shall constitute a violation of the Association’s governing documents.

If unauthorized work is identified, the Association may take one or more of the following actions:

Notice of Violation

The Owner shall receive written notice of the violation and may be required to submit a retroactive ACC application within ten (10) days of notice.

Retroactive Review

Submission of an after-the-fact application does not guarantee approval. The ACC may require modification, remediation, or removal of any improvement that does not comply with these Guidelines.

Fine for Unauthorized Work

Commencing work without prior ACC approval may result in a fine of **\$100 per violation**, assessed following written notice and an opportunity for hearing in accordance with North Carolina law.

Continuing Violation

If the violation remains unresolved following the hearing determination, additional fines of up to **\$100 per day** may be assessed until the violation is cured.

Remedial Action

If the ACC determines that the improvement cannot be approved, the Owner shall remove or correct the improvement at the Owner's expense within a reasonable timeframe established by the Board.

No Waiver / No Precedent

The failure of the Association, Board, or ACC to enforce any restriction, guideline, or rule in a particular instance shall not be deemed a waiver of the right to enforce the same provision thereafter, nor shall any prior decision be construed as establishing a precedent.

Failure to Discover Violation

Failure of the Association to immediately discover or identify a violation shall not constitute approval of the improvement nor a waiver of the Association's enforcement rights.

2. Reservation of Powers.

Guideline C.2.1. Imposing sanctions and commencing legal action

The Board has expressly reserved for itself the power to impose sanctions on any Owner for the violation or breach of any of the provisions of Article VIII of the Declaration, including fines and any suspension of privileges and services of membership in the Association (including voting rights), or to commence any legal action at law or in equity in connection with any such violation, breach or sanctions, and no such powers (express or implied) have been delegated to the ACC.

3. Receiving Complaints.

Guideline C.3.1. Handling complaints when received

Any complaint by any Owner or resident of Park Crossing regarding any matter or thing covered by Article VIII of the Declaration is to be referred to the ACC Chair, who will then investigate, or cause the ACC to investigate, the complaint. It shall be within the discretion of the ACC whether to bring a complaint against an Owner for a violation or breach, or alleged violation or breach, of Article VIII in response to a complaint by another Owner or resident. Nothing herein shall prevent the Board from bringing such a complaint itself.

4. No Waivers.

***Background.** As provided in Section 1 of Article XI of the Declaration, failure by the Association or any Owner to enforce any covenant or restriction contained in the Declaration shall not be deemed a waiver of the right to do so thereafter.*

Guideline C.4.1. Waivers of Declaration void.

No one (including the Board or any of its Directors, the ACC and any of its members, or any officer or employee of the Association) shall be authorized to waive, abandon, repeal or abrogate any of the covenants, restrictions, conditions, obligations or provisions contained in the Declaration, and any purported waiver, abandonment, repeal or abrogation thereof shall be void. No covenants, restrictions, conditions, obligations or provisions contained in the Declaration shall be deemed to have been waived, abandoned, repealed or abrogated by reason of any failure to enforce the same, irrespective of the number of violations or breaches which may have occurred.

Guideline C.4.2. Waivers of Architectural Guidelines void.

No one except the Board shall be authorized to waive, abandon, repeal or abrogate any of these Architectural Guidelines, and any purported waiver, abandonment, repeal or abrogation thereof shall be void unless it is in writing signed by the Secretary of the Association pursuant to a duly adopted resolution of the Board. None of these Architectural Guidelines shall be deemed to have

been waived, abandoned, repealed or abrogated by reason of any failure to enforce the same, irrespective of the number of violations or breaches which may have occurred.

Part D. GENERAL PROVISIONS

1. ACC Members.

The ACC shall be composed of at least two Directors, one of whom the Board shall appoint to be the "Chair" of such Committee. Although no one other than a Director may serve as a member of the ACC, nothing herein shall preclude the ACC from enlisting any Owner to assist with the monitoring or investigation of matters concerning Article VIII of the Declaration (including, without limitation, Guideline B.3.1).

2. ACC Meetings.

The ACC may hold regular or special meetings of its members at the Association's principal office, at any ACC member's residence or by telephone. Regular meetings of the ACC may be held without notice of the date, time, place, or purpose of the meeting. Special meetings of the ACC may be held upon notice (which may be orally communicated) given by the ACC Chair to all other Directors who are members of the ACC not later than the commencement of any such meeting, provided that such notice indicates that the meeting being held is an ACC meeting. A quorum of the ACC consists of a majority of the Directors who are ACC members in office before a meeting begins provided at least two such Directors are in office.

3. Independent Action.

Nothing in these Architectural Guidelines shall limit the Board from considering any matter or taking any action under or relating to these Guidelines or to Article VIII of the Declaration whether or not the ACC has acted thereon, and in the event of any conflict between any ACC action and Board action, the act of the Board shall prevail.

4. Decisions Limited.

All decisions of the ACC and the Board in approving or disapproving plans and specifications for purposes of Article VIII of the Declaration are to be made on a case-by-case basis based on the relevant facts and circumstances, and any approval or disapproval given by the ACC or the Board to anyone on a given matter shall not be deemed to have been given to anyone else on the same or a similar matter.

5. Approvals.

(a) No approval or disapproval of plans and specifications required to be submitted under Section 1 of Article VIII of the Declaration may be given by the ACC on behalf of the Association without the affirmative vote or assent of a majority of the ACC members at any regular or special meeting of the ACC at which a quorum is present at the commencement of such meeting.

(b) Whenever the ACC grants conditional approval to any Owner for any matter or thing related to Article VIII of the Declaration and the Owner fails to comply with those conditions, the ACC may treat that as a failure of the Owner to comply with Article VIII of the Declaration and bring a complaint against the Owner as contemplated or refer the matter to the Board for further action.

6. Scope of Architectural Guidelines.

These Architectural Guidelines address matters on which the ACC is authorized to act in the administration of Article VIII of the Declaration, but the failure of these Architectural Guidelines to address a particular matter within the scope of Article VIII of the Declaration shall not be deemed to limit the authority of the ACC to act on that matter in the absence of Board action to the contrary.

7. Conflicting Terms.

In the event of any conflict between these Architectural Guidelines and Article VIII of the Declaration, the provisions of Article VIII will prevail.

8. Partial Invalidity.

The invalidity of any of these Architectural Guidelines or any portion thereof shall not impair the validity of the remaining Architectural Guidelines or any portion thereof.

9. **Amendments, etc.**

These Architectural Guidelines may be amended, repealed or replaced by the affirmative vote of the majority of the Directors then holding office at any regular or special meeting of the Board of Directors, and any such amendment or replacement may prohibit or restrict any structure, plant, animal, device, thing or activity previously allowed, provided that neither the adoption of these Architectural Guidelines nor any amendment or replacement hereof shall have the effect of nullifying any approvals previously given.

The undersigned hereby certifies that this is a true and correct copy of the Architectural Guidelines duly adopted by the Board of Directors on July 8, 2001 (revised July 12, 2026).

[Conformed Copy – Signature on File]

Malcolm Smith
Secretary of Park Crossing Owners Association, Inc.
